

45783-R4/UHF2 Dance Combo, has both Bluetooth and CD/USB/SD card player plus 2 wireless receivers built in

Do you need a tough, reliable PA Amplifier that you can take anywhere even outside and still have high volume & crystal clear sound? This Dance Combo has Bluetooth, CD/USB/SD added to give you plenty of options for your audio needs.

You can

- Connect your Bluetooth and control the audio from across the room.
- Play and amplify tracks on CDs, USBs, SD cards, smartphones, tablets, laptops.
- Take the unit outside to use from its internal batteries with no dangerous trailing wires.
- Have many hours use from its internal battery power.
- Get amazing quality of sound and impressive volume and bass.
- Connect to an optional additional speaker or two which will double the output of power and switch to stereo separation for even more clarity.
- Slow down or speed up the audio from CD/USB/SD.
- You can be set up and playing in seconds and is suitable for the gym, aerobics classes, dance classes, schools and other events even on the sports field.
